Company Profile

Established in January 1993 to handle the growing demand for installation and commissioning projects of the Philippines power industry, **FABMIK CONSTRUCTION AND EQUIPMENT CO., INC.** came to being. Initially starting as a spin-off company of ISOMETRIC INDUSTRIAL CORPORATION to handle its various installation and commissioning projects, FABMIK has since grown to become one of the leading local construction companies engaged in the construction and erection of transmission lines, overhead and underground distribution lines, substation and industrial plant for the public and private sector.

SEC Registrations

From 1993, the company experienced steady growth and in 1998, it was officially registered with the Securities and Exchange Commission.

Company Profile

Today, the company holds a **“Triple A” (AAA) accreditation for Electrical Works** from the Philippine Contractor’s Accreditation Board (PCAB). It has maintained its PCAB license since June 1998 under **Contractor License No. 24966**.

The company is managed by professionals with a combined industry experience of **over a hundred years** across **various engineering fields**. Its extensive experience in construction, including the erection of **transmission lines, distribution lines and substations**, can be demonstrated through numerous engagements with the **National Power Corporation, National Transmission Corporation and private sector clients**.

The company holds the **exclusive Philippine representation** for **nine electro-mechanical products** sourced from leading manufacturers in the **United States and Europe**.

On its 33rd year, [FABMIK CONSTRUCTION AND EQUIPMENT CO., INC.](#) continues with our vision of being the **country’s leading service provider for the power industry**.

VISION

To be the **country's leading service provider for the power industry**, specializing in transmission and distribution line erection, medium, and high-voltage substation systems, protection systems, air navigation systems, and engineering design.

AND

To be a **leading contractor in horizontal construction**, delivering roads, bridges, seaports, airports, dams, irrigation systems, potable bulk water supply, mass housing, and school buildings.
